Slide 1

Slide notes: We will now consider the basic Changes we can make to the Customer Order.

Slide 2

Slide notes: Apart from adding new Item Lines on the Order, we can also Change the Quantity on a Line Item.

The screenshot shows the IIS Navigator Client interface for a Customer Order. The window title is "IIS Navigator Client v8.1B : My IIS - Mac - [made-1]". The menu bar includes Help, Lookup, Back Field, Reset Line Edit, Min/Menu, Subst Field, and Quit. The main area is titled "Customer Order" and includes fields for Customer (CHAMPONE, THERESA), Process Order (Place Order), Deal Functions (Save for Later, Functions), and Order Date (12/03/2009). A table lists items from a catalog with columns for Stock Code, State, Description, Price, Cust Price, Qty, Serial/Batch, Total, Tax, and Incl Value. Below this is a "Recently Ordered, Not Recently Ordered (to promote) and Special Offers" section with a "Go-Start" button and a table listing items with their descriptions, prices, quantities, and special offers.

Stock Code	State	Description	Price	Cust Price	Qty	Serial/Batch	Total	Tax	Incl Value
