

Slide 1

Slide notes: In this tutorial, we consider how to upgrade the QM database to a new release. The 1st step is to download the software, and that is shown in a separate tutorial.

Slide 2

Slide notes: Next, we need to make sure that the currently installed QM is not running at the moment. In other words, if it is running, then it should be stopped.

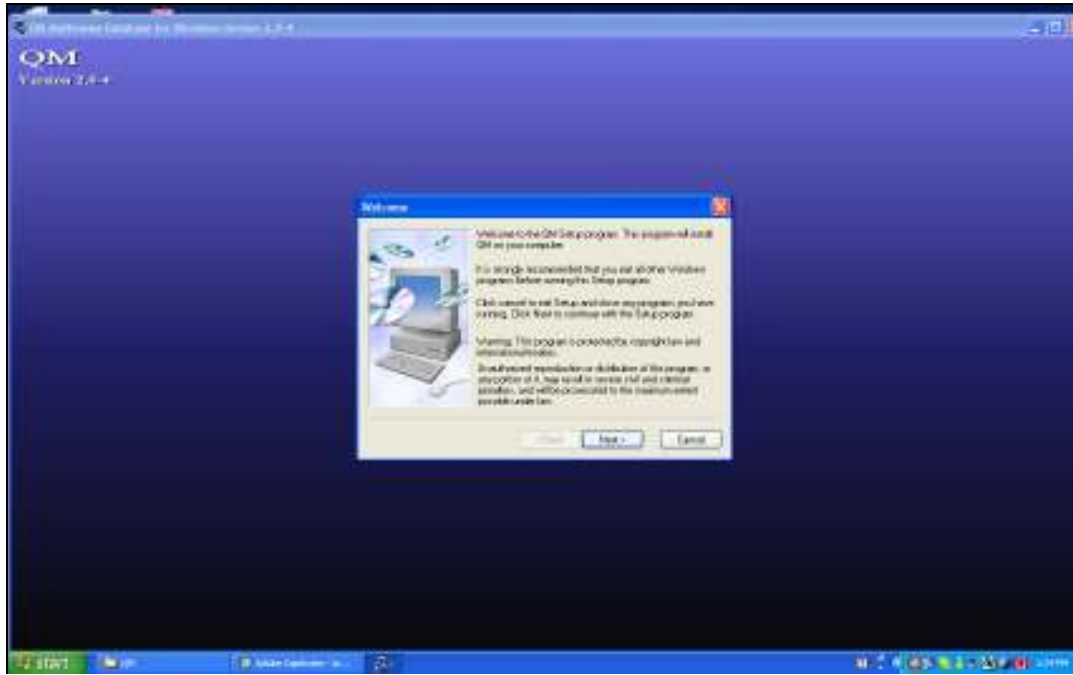

Slide 3

Slide notes: Now we are ready to perform the upgrade, and it takes only a few seconds. We start by opening the software.

Slide 4

Slide notes: The procedure is just like when we install QM for the 1st time, but this time the system already knows our settings.

Slide 5
Slide notes:

Slide 6

Slide notes: We accept the License Agreement.

Slide 7
Slide notes:

Slide 8

Slide notes: And then we simply choose NEXT each time, without changing any current settings.

Slide 9
Slide notes:

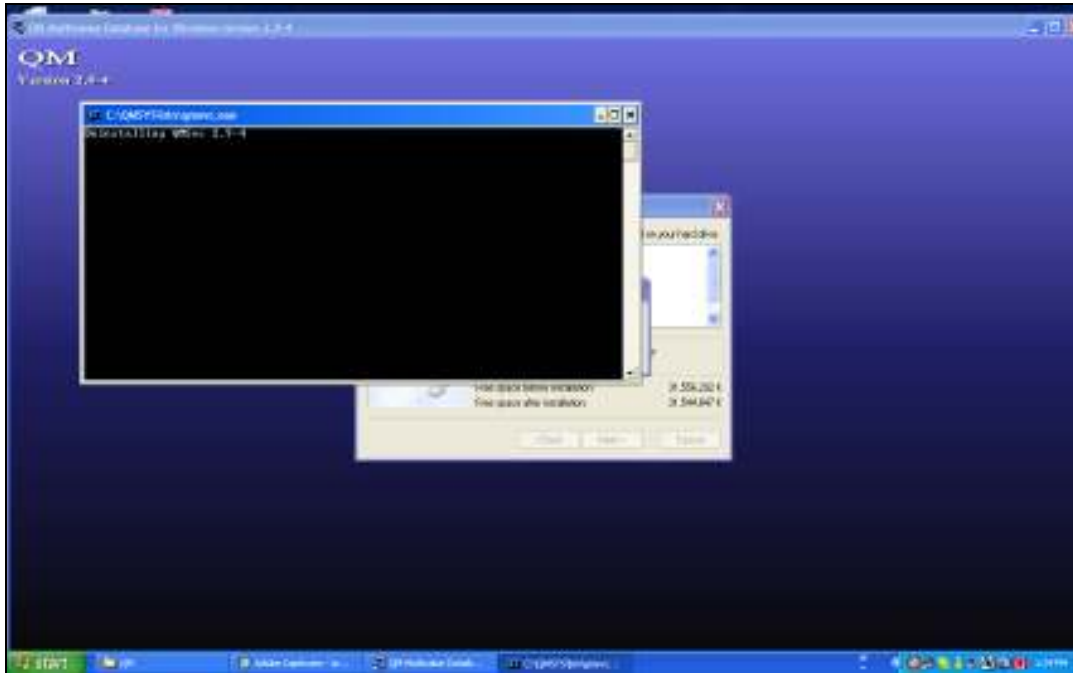

Slide 10

Slide notes:

Slide 11

Slide notes:

Slide 12

Slide notes: QM will first de-install the current version.

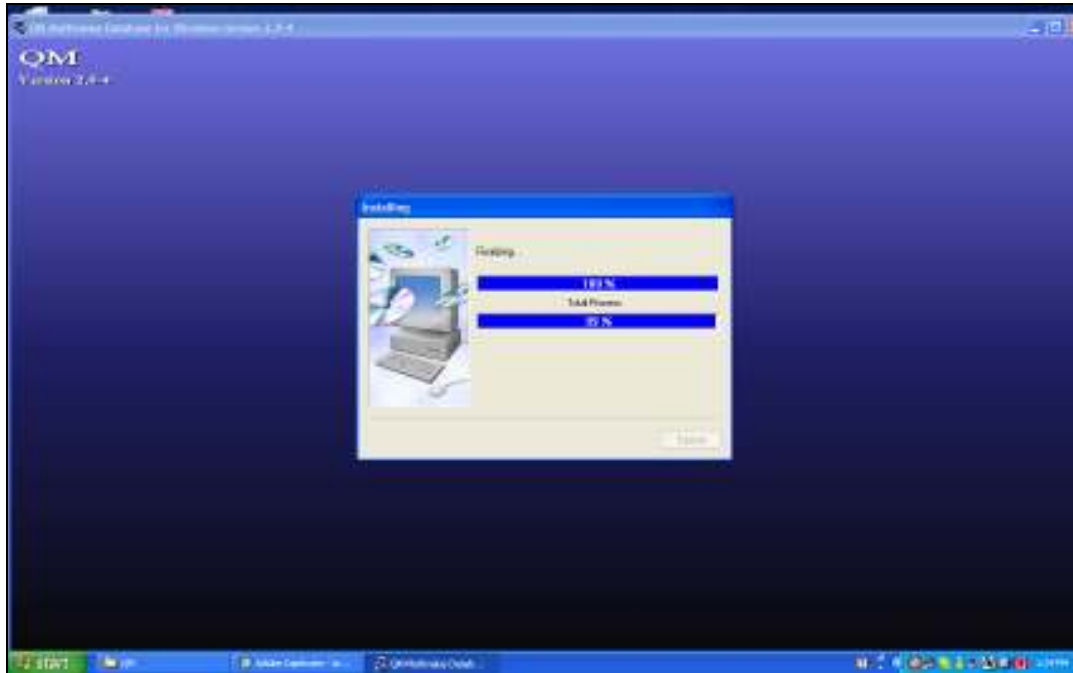

Slide 13

Slide notes: And then we choose Install to initiate the new version installation.

Slide 14

Slide notes:

Slide 15

Slide notes:

Slide 16

Slide notes: The License details do not require any changes. Just press ENTER until complete.

Slide 17

Slide notes:

Slide 18

Slide notes:

Slide 19

Slide notes:

Slide 20

Slide notes:

Slide 21

Slide notes:

Slide 22

Slide notes: The next question is of critical importance. If we do not say YES here, then IES will not work properly. And if we make a mistake, then the upgrade should be performed again so that we can reply "Y "here.

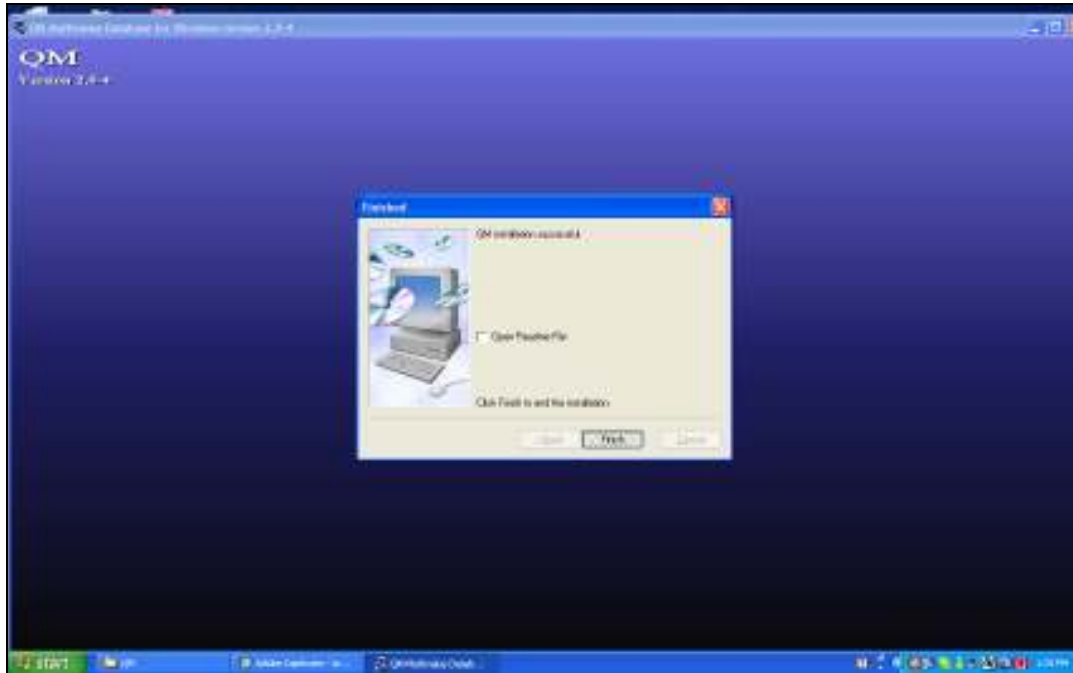

Slide 23

Slide notes: Type "Y" for YES.

Slide 24

Slide notes:

Slide 25

Slide notes: And that concludes the upgrade exercise. The QM database is now upgraded.
