A screenshot of a terminal window titled "QM". The window has a blue title bar with standard window controls (minimize, maximize, close) on the right. The main area is black with white text. The text reads: "Hello Terry." followed by "You are welcome at tcl in account IESBUSINESS." on the next line. At the bottom left, there is a prompt character ":" followed by a horizontal line "_".

```
QM  
Hello Terry.  
You are welcome at tcl in account IESBUSINESS.  
:_
```

Slide 1

Slide notes: There is an easy way to find out what version of the QM database is currently installed. Using a Console or Telnet session, just log to any IES Datamart.

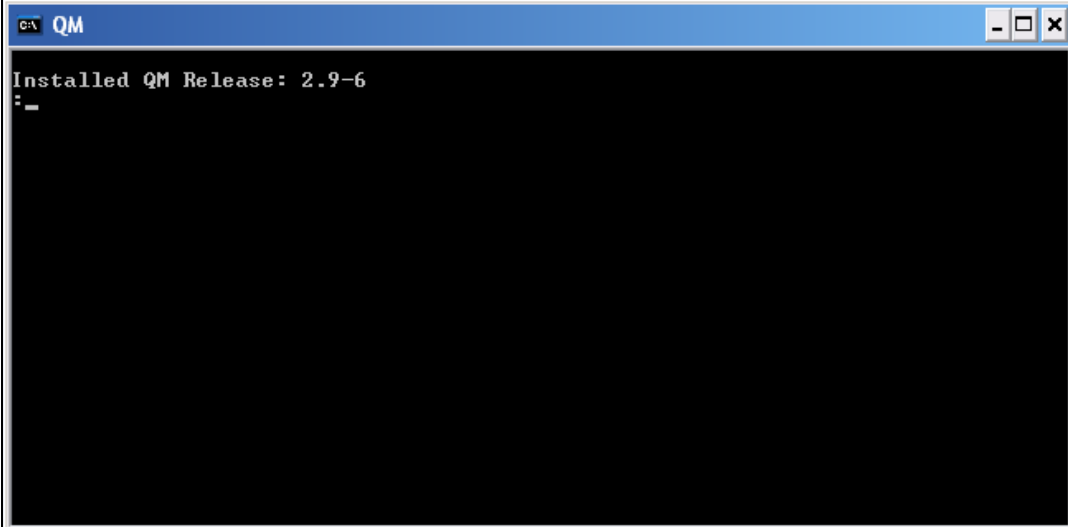

```
C:\ QM
Hello Terry.
You are welcome at tcl in account IESBUSINESS.

:whichqm
```

Slide 2

Slide notes: And type the command: whichqm

A screenshot of a Windows-style window titled "QM". The window has a blue title bar with standard minimize, maximize, and close buttons. The main content area is black with white text. The text reads "Installed QM Release: 2.9-6" followed by a colon and a hyphen on the next line.

```
C:\ QM
Installed QM Release: 2.9-6
:-
```

Slide 3

Slide notes: IES will then display the current QM installed release number.
