

Slide 1

Slide notes: Projects are global to the system. If we will have many Web Application pages then it will be useful to create new Projects according to which we can classify our Pages.

Slide 6

Slide notes: By default, the system provides 1 Project, called "system". This same Project can be used for many Pages, but it is useful to make our own Projects in addition.

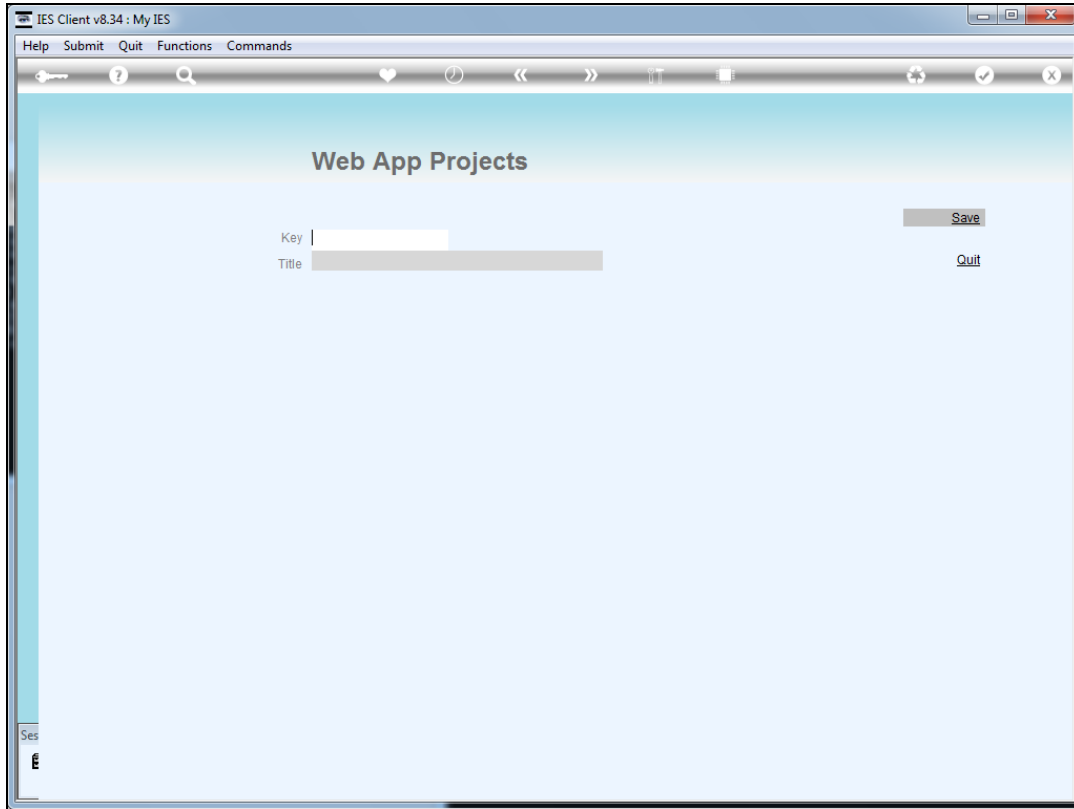

Slide 7

Slide notes: A project only needs a short Key and a Name.
